

### **SUPERVISOR DIANE JACOB VISITS OAK GROVE CRITICAL HOURS PROGRAM**

The Critical Hours after-school program at Oak Grove Middle School in Jamul was thrilled to host County Supervisor Diane Jacob on January 28th. Supervisor Jacob spent time with students and staff to show her support of after-school programs and learn more about the exciting activities at Oak Grove.

The San Diego County 4-H Youth Education Foundation runs the Oak Grove Critical Hour program, located in the 2nd Supervisorial district. The Foundation partners with University of California Cooperative Extension program to provide innovative curriculum and evaluation to the after-school program.

When staff and students gave Supervisor Jacob a guided tour of the campus, they quickly learned that Supervisor Jacob already knew her way around, as she had once been a classroom teacher at Oak Grove. Supervisor Jacob was excited to see new additions to the program such as a gardening club that works on landscaping and beautifying the school grounds, a sewing club and the computer lab.
